

PACKET HOW-TO

Print packet out. Select 'FIT' option when printing.

Collect one set. Cut straight across the dotted line. If your scissors are weaker, split the packet in half to cut.

Put title pages and 1-14 (top half) on top of 15-30 (bottom half). This will work with front/back on the copier, too.

2-3 staples along the side. You may need a stapler made for larger stacks of paper, like the PaperPro One Finger Stapler. If you don't have one strong enough, tie the pages together!
